The diagram illustrates the lighting systems for two runways, RWY 15 and RWY 33, showing the layout of edge lights, center line lights, and threshold lights.

RWY 15 APPROACH:

- Red Rwy Edge Lights (60m interval):** Located at the start of the runway.
- 750m:** Distance from the start of the runway to the threshold.
- GREEN THRESHOLD BARS:** Located at the start of the runway.
- White Rwy Edge Lights (60m interval):** Located along the length of the runway.
- Amber Filters (60m interval):** Located at the end of the runway.
- Rwy Centre Line Lights 30m interval:** Located along the center of the runway.
- Red Rwy End Lights:** Located at the end of the runway.
- 3670m (White):** Total length of the runway.
- 600m (Red/White):** Distance from the end of the runway to the threshold.
- 300m (Red):** Distance from the end of the runway to the threshold.

RWY 33 APPROACH:

- Amber Filters (60m interval):** Located at the start of the runway.
- 600m:** Distance from the start of the runway to the threshold.
- White Rwy Edge Lights (60m interval):** Located along the length of the runway.
- Variable White THR TDZ Lights (30m interval):** Located at the start of the runway.
- 900m:** Distance from the start of the runway to the threshold.
- Rwy Centre Line Lights 30m interval:** Located along the center of the runway.
- Red Rwy End Lights:** Located at the end of the runway.
- 300m (Red):** Distance from the end of the runway to the threshold.
- 600m (Red/White):** Distance from the end of the runway to the threshold.
- 3670m (White):** Total length of the runway.
- GREEN THRESHOLD BARS:** Located at the start of the runway.
